

**Legend**

- Claim boundary
- Grid lines
- Trails
- Fault / shear zone with indication of dip
- Fault and ductile brittle shear zone
- Upper felsic gneiss
- Chloritic mafic gneiss / graphitic mafic gneiss
- Fault / shear zone related graphite
- Graphitic shear
- Quartz garnetite / graphitic quartz garnetite
- Garnetite / graphitic garnetite
- Metapelite / graphitic metapelite
- Lower felsic gneiss / albitized
- Metabasite
- Pegmatite

**Drilling**

**GT color scale (1.0‰ cutoff)**

- |               |  |          |   |
|---------------|--|----------|---|
| Total -<br>GT |  | 0-1      | the cross indicates<br>the location of the<br>drill hole at the<br>unconformity |
|               |  | 1-5      |   |
